No storage accounts to display

Create a storage account to store up to 500TB of data in the cloud. Use a general-purpose storage account to store object data, use a NoSQL data store, define and use queues for message processing, and set up file shares in the cloud. Use the Blob storage account and the hot or cool access tiers to optimize your costs based on how frequently your object data is accessed.

Create a storage account

Project details

Select the subscription in which to create the new storage account. Choose a new or existing resource group to organize and manage your storage account together with other resources.

Subscription * : Azure subscription 1

Resource group * : (New) BreachBreezeStorage

Create new

Instance details

Storage account name * : bbstorage026

Region * : (UK) UK West

Deploy to an Azure Extended Zone

Preferred storage type : Azure Blob Storage or Azure Data Lake Storage Gen 2

This helps us provide relevant guidance. It doesn't restrict your storage to this resource type. Learn more

Performance * :

- **Standard**: Recommended for most scenarios (general-purpose v2 account)
- **Premium**: Recommended for scenarios that require low latency.

Redundancy * : Geo-redundant storage (GRS)

Estimated monthly costs

Costs indicated here are estimates only. Pricing may vary depending on your Microsoft agreement, date of purchase, subscription type, usage costs, licensing and currency exchange rates. Total costs may include other resource costs, licensing and subscription implications. This feature may have limited or restricted functionality, but is made available on a preview basis for evaluation and feedback.

Give feedback about your estimate experience

Basics	$152.57
Disks	$0.00
Networking	$3.65
Public IP	$3.65
VM outbound data transfer	$0.00
Estimated data transferred (GB)	$0.00
Estimated monthly cost	$156.22
